### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Todd Albanesi on 5/9/06.

The application has been amended as follows:

Claims 57, 59, and 60, line 1, the term "claim 2" has been replaced with --claim 55-- in order to correct the dependency.

2. The following is an examiner's statement of reasons for allowance: the prior art of record, including newly cited US 6,702,023 fails to teach or suggest a method of treating a subterranean formation including a breaker moderator as called for in the claims.

The US'023 reference does teach a method of treating a formation including providing treatment fluid comprising calcium, magnesium, polysaccharides, and a hypochlorite breaker. However, the reference fails to teach the limitations as called for in the claimed combination, including a breaker moderator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zakiya W. Bates (formerly Zakiya Walker) whose telephone number is (571) 272-7039. The examiner can normally be reached on Monday-Friday, 8:30 AM-5 PM.
